Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at http://about.jstor.org/participate-jstor/individuals/early-journal-content.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

AMERICAN JOURNAL OF BOTANY

DEVOTED TO ALL BRANCHES OF BOTANICAL SCIENCE

ESTABLISHED 1914

EDITED BY A COMMITTEE OF THE BOTANICAL SOCIETY OF AMERICA

EDITORIAL COMMITTEE

C. E. ALLEN, Editor-in-Chief,
University of Wisconsin

WILLIAM CROCKER,
The Thompson Institute For Plant Research, Inc.

H. H. BARTLETT,
University of Michigan

C. STUART GAGER, Business Manager
Brooklyn Botanic Garden

ARTHUR H. GRAVES,
Brooklyn Botanic Garden

R. A. HARPER,
Columbia University

I. F. LEWIS,
University of Virginia

C. L. SHEAR, *Bureau of Plant Industry*
(Representing American Phytopathological Society)

The Journal is published monthly, except during August and September. Subscription price, $6.00 a year. Postage to Canada, 20 cents; to other foreign countries (except Mexico and Cuba) 40 cents a volume on annual subscriptions. Single copies 75 cents. Back numbers, 75 cents each; $7.00 a volume, post free.

The pages of the Journal are open to members of the Botanical Society of America, or to candidates approved for membership.

Manuscript offered for publication should be typewritten, and should in all cases be submitted to the Editor-in-Chief.

Papers are limited to 20 pages in length, exclusive of plates, except that additional pages may be arranged for at cost rate to authors (approximately $3.00 a page).

Proofs should be corrected immediately on receipt, and returned to American Journal of Botany, Brooklyn Botanic Garden, Brooklyn, N. Y.

Illustrations, other than zinc etchings, and tabular matter should, in general, be restricted to approximately ten percent of the number of pages of text. Authors may be charged at cost rates for illustrations and tabular matter in excess of that amount (approximately $6.40 a page for tabular matter; 15 cents per square inch for half-tones).

Separates should be ordered when proof is returned. Fifty copies without cover will be supplied free; cover and additional copies at cost.

Remittances should be made payable to American Journal of Botany. Ten cents must be added to all checks not drawn on New York City banks.

Claims for missing numbers should be made within 30 days following their date of mailing. The publishers will supply missing numbers free only when they have been lost in the mails.

Correspondence concerning editorial matters should be addressed to Prof. C. E. Allen, University of Wisconsin, Madison, Wisconsin.

Business correspondence, including notice of change of address, and directions concerning reprints, should be addressed to American Journal of Botany, Brooklyn Botanic Garden, Brooklyn, N. Y., or The New Era Printing Co., Inc., Lancaster, Pa.

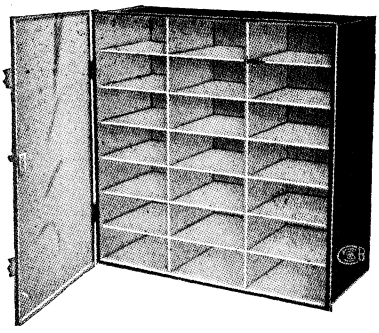
All Metal Cases For Botanical Laboratory

For its valuable collection of mounted botanical specimens the University of Pennsylvania required a convenient method of storage that would give complete protection against moisture, dust and vermin. After a thorough investigation, Dr. True, of the Botanical Laboratory, installed fifty-four All Metal Herbarium Cases.



The All Metal Herbarium Case

"VERY MUCH PLEASED"

UNIVERSITY OF PENNSYLVANIA, PHILADELPHIA

Cambridge Botanical Supply Co., Waverley, Mass.
Gentlemen: We are glad to be able to report that the Herbarium Cases have been coming in in very good condition and I am advised by our Dr. True that he is very much pleased with them.
Very truly yours,
BOULTON EARNSHAW, Purchasing Agent.

Constructed so that dust, moisture and insect pests can enter only when the door is open. Partitioned to provide 21 standard compartments. Finished in dark green or black enamel. Dimensions: 17 x 38 x 42½ in. Order Number 10–40 J. Price, crated, F.O.B. Waverley, $100.00

CAMBRIDGE BOTANICAL SUPPLY COMPANY

Laboratory Equipment for All Sciences

WAVERLEY, MASS., U. S. A.

A Real Vasculum

CAPACIOUS—to hold a good day's collection.
STRONG—to withstand the rough wear of field usage.

Attractively finished in fine green japanning, with hinged cover running the full length of case, wire latch, handle for hand-carrying and metal loops for shoulder strap.

Made in 3 sizes:

A	**16 x 7½ x 5 inches**	**each**	**$3.50**
B	**19 x 8½ x 5½ inches**	**each**	**3.75**
C	**21 x 9½ x 6 inches**	**each**	**4.00**

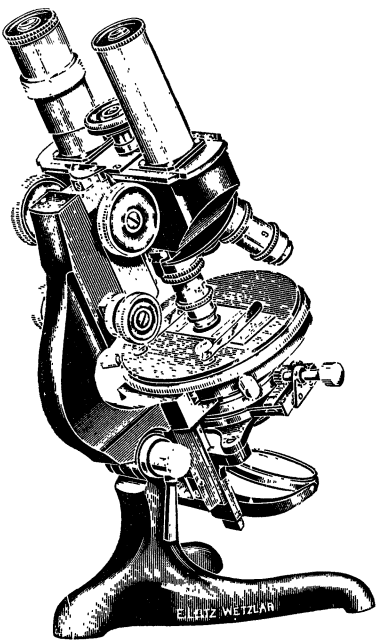
Leitz Microscopes are the Standard of the World

Leitz "Mon-Objective Binocular" Microscope

The Modern Research Type

This model **originates** with Leitz and was successfully introduced in 1913. Other firms have copied this model, but the individual design, superior workmanship and efficiency of the Leitz pattern will fully protect the prestige for the original type.



POINTS OF MERIT

1. Binocular vision.
2. Perfect accommodation to any interpupillary distance.
3. Adjustment for any difference in refraction between the eyes.
4. Complete elimination of eye strain.
5. Improved quality of image.
6. Parallel eyepieces.
7. The possibility of using any favored objective from the lowest power to the highest oil immersion.
8. No reduction in numerical aperture.

Complete Stock of Laboratory Apparatus, Glassware, etc., always on hand for prompt delivery. Equipping complete laboratories is our specialty; our import service is reliable and, through our connection, one of Economy. Estimates are rendered promptly.

Write for Pamphlet No. Z-1003.

SPENCER
Convertible Binocular Microscope, No. 58

In addition to regular microscopic work, this instrument is **convertible**:

For examining large objects on a table.
For examining vertical surfaces.
For examining high objects.

Advantageous Features

I. Inclination joint.
II. Removable stage.
III. Long range of upward and downward movement.
IV. Adjustable arm covering entire stage.
V. Mirror adjustable in all directions.
VI. Accommodation for pupillary distance.
VII. Automatic shutter cutting off light to either eye.
VIII. Patented solid objective mount, holding lenses in absolute alignment.

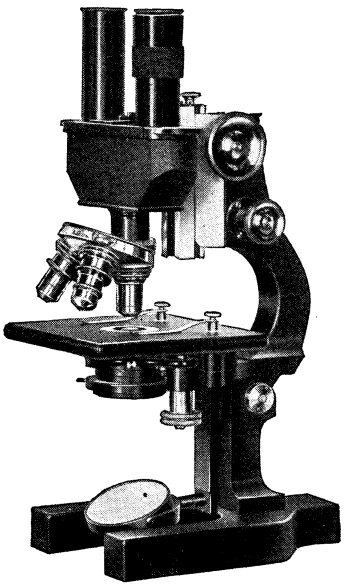
A Binocular Microscope for Research Work



Microscope FAE,8
Price, $227.50.

Microscope FAE, binocular type, using Single Objectives for the full range of powers, is a most useful instrument for prolonged observation. It is used with great satisfaction by leading research and laboratory workers. The following advantages are offered:

As the eyepiece tubes are mounted in a parallel position, both eyes are free from the strain of accommodation or convergence.

The user is given the impression of increased penetrating power, permitting him better to interpret what is seen.

It yields brilliancy of field and improved quality of image.

Provides maximum range of adjustment for interpupillary distance; left eyepiece is adjustable.

As the right eyepiece is rigid and vertical, the Camera Lucida may be used if desired.

Write for literature or other information on this or other Bausch & Lomb Microscopes.
